The sites denoted as "NFA" are the sites that are done, or nearly done, but could not be added until this Docket update. As previously noted, I propose these sites be added, and as soon as the docket update is published we will have our discovery date, and can NFRAP the sites. The balance of the other USCG sites are either underway, or soon to be started. For the USCG sites, the responsible agency is Department of Homeland Security, and the Reporting Mechanism is "Other" Please be aware that some sites were USCG lighthouses on the Great Lakes and are now owned by the National Park Service.
